Partnership Framework & Client Agreement

Kynvera — Governance, Revenue Policy & First Client Engagement

Section 1 — General Provisions

1.1 Company Overview

Kynvera ("the Company") is a joint venture founded and operated by its two partners, engaged in the design, development, deployment, and ongoing support of software and technology solutions for clients across multiple industries. The Company's scope extends beyond any single line of business and encompasses application development, digital infrastructure, and related technical services offered on a client-by-client basis.

1.2 Partners and Governance

The Company is jointly owned and governed by:

- Arshith Swaminath P — Partner, Technical Lead
- Taha Elhassan — Partner, Business & Financial Lead

The partners have mutually agreed to the following division of authority:

- Technical decisions — including but not limited to system architecture, development methodology, technology stack, deployment strategy, and technical scope of work for any client — shall be determined solely by Arshith Swaminath P.
- Financial and business decisions — including but not limited to pricing strategy, client negotiations, contractual terms, and fund management — shall be determined solely by Taha Elhassan.

Where a decision touches both domains, the partners agree to reach consensus; in the absence of consensus, each partner's authority within their designated domain (as defined above) shall prevail.

1.3 Reserve Capital Fund

The Company maintains a Reserve Capital Fund, into which a fixed percentage of revenue from every client engagement is allocated. This fund exists to build long-term capital reserves for the Company, independent of and prior to any distribution to the partners.

1.4 Standard Revenue Allocation Policy

Unless otherwise varied by specific written agreement for an individual client, the following allocation policy applies to all client revenue:

Revenue Type	Reserve Fund	Partners' Share
Recurring (monthly) revenue	25%	75% split equally between the two partners (37.5% each)
One-time deployment / establishment fee	25%	75% allocated in full to Arshith Swaminath P

1.5 Client-Specific Pricing

The partners acknowledge that pricing — including monthly recurring fees and one-time deployment fees — is inherently subjective and shall be determined independently for each client and each department, based on scope, effort, and business context. Pricing terms agreed for one client do not set a binding precedent for any other client unless the partners expressly agree otherwise. Section 2 below sets out the terms specifically agreed for the Company's first client.

Section 2 — Client Agreement: Amaan Systems

2.1 Client

This section documents the terms agreed between Kynvera and Amaan Systems (“the Client”), the Company’s first client engagement, for the design, development, and deployment of the Amaan Application.

Item	Details
Client	Amaan Systems
Application	Amaan Application
Monthly Recurring Fee	AED 1,850 — hosting, support & maintenance
One-Time Deployment Fee	AED 3,250 — development, setup, testing & handover
Effective Date	1 August 2026

2.2 Monthly Recurring Fee

The Client shall pay Kynvera a fixed monthly fee of AED 1,850, payable on a recurring monthly basis, covering ongoing hosting, support, and maintenance of the Amaan Application.

2.3 One-Time Deployment / Establishment Fee

In addition to the monthly recurring fee, the Client shall pay Kynvera a one-time deployment and establishment fee of AED 3,250, covering the development, setup, configuration, testing, and handover of the Amaan Application. This fee reflects the initial build effort invested by the technical partner over the course of the engagement.

The development effort underlying this fee spanned approximately 2 months, at approximately 3 hours per day, totaling approximately 180 hours — equating to approximately AED 54.2 per day and AED 18 per hour.

2.4 Revenue Allocation for This Engagement

Revenue from this engagement shall be allocated in accordance with the Standard Revenue Allocation Policy set out in Section 1.4:

- Monthly fee: 25% to the Reserve Capital Fund; remaining 75% split equally between the partners.
- One-time deployment fee: 25% to the Reserve Capital Fund; remaining 75% allocated in full to Arshith Swaminath P.

2.5 Effective Date

This agreement takes effect as of 1 August 2026 and remains in force until superseded or terminated by mutual written agreement of the partners.
