

KYNVERA

Brand kit

Logos and colour codes

Kynvera

All Operations. One Platform.

App mark

Kynvera

Wordmark

Reversed

Logo types

Use the mark in-app. Use the wordmark on documents and About. Do not recolor outside coral or white.

App mark

kynvera-mark.png

Kynvera

Wordmark

kynvera-wordmark.png

Reversed mark

kynvera-mark-reversed.png

Primary mark. Nav, app icon, and brand-forward tiles. White K. on coral.

About, document headers, and brand-forward surfaces. Do not recolor.

Dark or photographic backgrounds. White K. only.

App mark sizes

Favicon and nav scales — keep the coral tile intact.

Mark 32×32

Mark 48×48

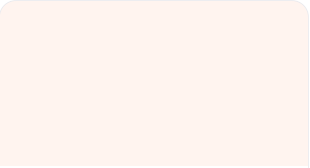

Mark 96×96

Mark 180×180

Brand coral

Coral is the only loud colour. Neutrals carry the UI; coral means action or brand.

			
Brand / CTA #FF8E68 R255 G142 B104 --color-brand	Hover #F97E54 R249 G126 B84 --color-brand-light	Pressed #E05F36 R224 G95 B54 --color-brand-dark	Soft wash #FFF4EF R255 G244 B239 --color-brand-accent

----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

How to use

- Do** Keep coral for CTAs, focus rings, progress, and the logo. Surfaces stay cool and neutral.
- Don't** Don't introduce a second accent (purple, green chrome, competing orange) in core UI.
- Print / Excel** Headers use #FF8E68. Body text #191B23. Hairlines #E9EAEE. White type on coral bars.
- Contrast** White labels on solid coral. Dark ink on wash (#FFF4EF) and white surfaces.

Neutrals, chrome, semantic

Copy these hex codes. Tokens match static/css/design-tokens.css.
